A BLOODY RECORD.

THE HOGS THAT HAVE BEEN KILLED. THE NUMBER OF PIGS THAT HAVE GIVEN UP THE SHOST IN THE SLAUGHTERING SEASON CF 1873-WHAT HAS BEEN DONE AT ALL

The Chicago Times, by special telegrams from all points, gives the result of the pork packing of 1873. In Chicago, the returns recoived on Saturday last from the various local packers of their business from Nov. 1, 1873, to the 2d inst., aggregate 1,060,668 head, against 695,305 head for the same time last year. During October the number of hogs slaughtered is estimated at 70,000, The packing for the entire season of 1872-3 amounted to 1,425,079 head. Unless the "run" of hogs during the last half of January and the month of February is considerably smaller than is now expected, it is pretty generally believed that the packing during the present season will be the largest by several thousand ever reported in the history of Chicago. CINCINNATI, Jan. 4 .- Most of the bogs that

come into Cincinnati, come by the way of

Sample & Sons have killed and packed 25,690 hogs this season, being something over 600 more than last season. The average gross weight of hogs this year was 263 pounds, against 293 last season, and their statements shows a falling off of from ten to twelve per cent in lard this season. J. H. Telford & Co. say they have not yet finished packing, and have no idea as to how many they have killed this season or what the weight will be.

INDIANAPOLIS SENTI

An Independent Newspaper.

THE INDIANAPOLIS SENTINEL.

THE NEWSPAPER OF INDIANA

UNTRAMMELED AND NONPARTISAN.

DAILY, SUNDAY AND WESELY.

Setting out on a somewhat new and untried path last year, the Sentinel defined at length and in detail its purposes. To those who have watched that course it reasserts its claim for continued countenance and loyal support. The Sentinel promised last year perfect independence from all partisan ties. It promised earnest, unrelaxing efforts in the production and presentation of a wholesome, refined and trustworthy news medium. In the success of that effort it has the cordial endorsement of a vast number of its cotemporary journals, and the written assurance of a great constituency of ministers, teachers, lawyers and families. The measure of the Sentinel's success is, however, best shown by the position which it has taken within the year, as the first newspaper of the State, and a leading newspaper of the West. To this fact nearly every journal of intelligence and discrimination in the State has borne testimony, as well as the swelling hats of new readers who have joined its ranks of friends. This in a general way.

For the next year the Sentinel reaffirms its attitude in the past year-the organ of no party or creed-the temperate advocate, only, of the most generous measures in Church and State. It will continue to publish all the news at the earliest moment. It will reflect the sentiments of the people, and hold itself outside of all party ties. It will support only honest men for office nd demand a pledge of character, not party. It will uphold sesiously the hands of all men honest and earnest in reform, no matter what their party or predilections, and it will strive to give all sides a hearing in the changing topics that fill the public mind from time to time.

The Sentinel has no policy to maintain as opposed to the will of the majority. Its columns PLAN OF DRAWING—There will be placed upon the stage two giass wheeles, the contents of which can be seen by all present. A committee of three prominent citizens, not connected with the enterprise, will oversee the drawing on the stage. The large wheel will contain tags with numbers corresponding with the takets acid. The other wheel will contain tickets with the orizes marked on them. The tags will be drawing mom the wheels by two blindfolded chiatren, rander fourteen years of age.

The numbers and prizes, as drawn, will be held wit to the audience, called out and passed to the inspectors, then registered in three different ulsters by three clerks. The delivery of prizes cepdommence on February 22, on presentation will be tickets entitled to them. All prizes not wited for within sixty days after the drawing affile considered forfeited. A printed list of the drawing will be sent to each ticket holder.

On the great industrial questions, now moving the public mind, the Sentinel will maintain a hearty, earnest co-operation with all struggling men seeking to better themselves mentally, physically, and every way. It believes that the present revenue laws work mischievously and discriminately against the producer and in favor of the non-producer, and that any reform which does not make farmer's rights and revenue reform solid planks of its platform and active measures in its policy, does not dessrethe sympathy of intelligent men The Farmers' movement received its first recognition in this section from the Sentinel. Its efforts shall continue to be directed toward the strengthening of that design. In its opposition to political, ratiroad and financial monopolies, the Sentinel will continue an honest support. While furthering all interests in this direction, wisdom must be called in Legalized by State Authority and Drawn in Public b to keep the crusade against publicabuse, monop olies, and the like, from degenerating into demagoguery. In all emergencies of this nature, the Sentmel will attempt full and impartial justice

to all who trust it. Concerning its general features as a newspaper, the Sentinel will hold its rank as the foremost in the State, by a continuance of the same policy of liberal expenditures whenever events of proment occupy the public mind. The reatures for which this paper has become popular and distinguished during the last year, will be carried out still more fully, if possible, the coming year, and every department made of vital, abiding interest and usefulness to the home circle, the minister, the lawyer, the educator-in short, all classes who want a pure and upright press, un-

trammeled by party and unwarped by prejudice The Sentinel is not only the completest news paper in its presentation of news and its com ments thereon, but it is a visitor every day it the year-for the 265 days-omitting no publice tion on any pretext. It is, in this respect, one the most valuable news mediums in the State. In short, the Sentinel means to keep ahead of the brilliant progress of the State. It means to give voice to the most liberal, enlightened and purest sentiment of the time, and in this respect claims a distinctly special mission. It depends on its character as an independent and fearless news medium for growth and support, and makes no pretext of cheap premiams to secure reluctant supporters.

Its market reports-regular, special and compiled, are the fullest, most diversified and complete presented in any journal of similar resources in the country. Its law, educational and industrial reports, which have attracted general attention in the past, shall be continued with equal care and accuracy in the future, and no cost spared in perfecting such details as will render them in every way the features of Indiana journalism. In a special way, the Sentinel is better able to present a complete newspaper than any of its rivals in the Wast. It has no party obligations of any character, and is consequently enabled to give all sides of current controversies, irrespective of prejudices of men or parties. As a reflex of the growth of Indianapolls, the Sentinel takes marked precedence of all rivals. Its city columns are fuller in detail and more accurate in preparation than any simflar department in the West, and the fact is attested by the Sentinel's universal circulation in the city. The Sunday Sentinel reaches a greater constituency than any daily in the State, and increases at an unexampled rate from week to week, not only in the city, but throughout all parts of the State accessible by Sunday trains.
